BROWNS
IRON
BITTERS
THE
BEST TONIC.

For Weakness, Lassitude, Lack of Energy, etc., it HAS NO EQUAL, and is the only tonic medicine that is not injurious. It purifies the system, stimulates the Digestive System, restores Appetite, aids Digestion. It does not blacken or injure the teeth, causes headache or produces constipation—other tonic medicines do.

DR. G. H. BINKLEY, a leading physician of Spring- held, Ohio, says:

Brown's Iron Bitters is a thoroughly good medicine. I use it in my practice, and find its action equals all other forms of iron. In weakness, or a low condition of the system, Brown's Iron Bitters is the tonic of the age. Nothing better. It creates appetite, gives strength and improves digestion.

VICTIMS OF FIRE.

Over One Hundred and Forty People Burned to Death.

MANY OTHERS WOUNDED.

THE AWFUL SCENES OF DEATH IN AN ENGLISH THEATER.

A Fire Breaks Out in the Theater Royal at Exeter, England, During a Performance, and the Play House was Soon Turned into a Funeral Pyre.

LONDON, Sept. 7.—The new Theater Royal, at Exeter, Devon, burned last night during the production of "Romany Rye." Near the end of the third act fire shot out from the flies and the rush began. The actors and employees ran out of the stage entrance and escaped, while the audience crowded and jammed towards the regular exit. Those who had occupied seats on the lower floor escaped, although many were crushed at the doors, which as usual were locked and had to be forced from their hinges.

The theater was soon a mass of flames, water having but little effect on it. In the gallery and balcony a fearful panic ensued, and some jumped from the windows, and it was impossible to check them.

When an entrance from the outside had been effected the sight on the gallery stairs was fearful. Masses of burned corpses lay here and there, and 130 bodies were taken out. Many of the injured died soon after, and men and women were running about the streets hunting their lost ones all night. The remains for the most part were so badly burned that identification was impossible. The clothes were burned off and the flesh literally roasted.

A stall occupant thus describes the scene: The scene following the discovery of the fire was awful. Men implored the audience to be cool and tried to check the frantic rush, but to little purpose. Women were fainting and wringing their hands. Some husbands carried out their wives and children screaming, everybody rushing to the nearest exit.

Short as was the time, those who escaped into the corridor leading into the vestibule found it filled with dense smoke, and escaped in a half suffocated condition. In a few minutes the hose, always kept in readiness, was pumping water on the stage from the dress circle, but this had no effect. Within five minutes of the outbreak the city fire brigade were on the spot, but the water then poured on the fire was absolutely without effect.

There are 106 bodies lying in the London Inn square awaiting identification. They are all frightfully burned, chiefly about the head and hands. The majority of them are men and boys, although thirty women were counted on the stretchers as they passed, who were apparently for the most part occupants of the gallery. A heap of bodies still remained in the higher gallery staircase on the first dozen steps before the fire destroyed that part of the building.

Unfortunately, as was the case with the Paris theater, the escape doors in one street were fastened. The people behind them yelled madly and threw their whole weight against the doors until they were wrenched off their hinges. The bodies present a sickening aspect. Upon going a little higher up the stairs more bodies were discovered. These were laid in rows in an adjoining room for identification, and those who showed signs of life were conveyed on stretchers to the hospital. All the medical men in the city were on the spot, rendering what assistance they could. The sheriff states that he has counted 130 dead bodies. The scenes in the streets, and where the bodies are lying is pitiful. Women are looking for missing husbands, and husbands for wives and daughters, and mothers for their sons.

The victims were mostly working people who had occupied seats in the fatal gallery. In many cases fathers and mothers both perished, and the number made orphans by the terrible holocaust is exceptionally large. Several bodies have been burned to nothing but a small cinder, making identification impossible. Sixty of those who were taken to the hospital are seriously injured, and many of them will probably die. A number of them give no sign of recovery. The number of deaths is mounting upwards, and it is feared now that it will reach 140 at the lowest estimate.

A telegram from Exeter at 5 o'clock this morning says that the fire is under control. Only the walls of the structure are standing. People distracted with anxiety are wandering about the streets in the neighborhood of the theater in search of missing friends. The hospitals are besieged by anxious inquirers for friends. Twenty badly burned persons, who were admitted to hospitals, died a few moments after they were received.

Last of the Boddlers Resigns.

CHICAGO, Sept. 7.—The resignation of Finlay A. McDonald as a member of the board of county commissioners was sent to Chairman Aldrich yesterday. McDonald always operated with the "boddlers," and it is generally believed that he shared in the spoils. His resignation is in deference to public sentiment, and the board may now be said to be absolutely purged from all "boddy" association.

Cardinal Gibbons Robbed.

BALTIMORE, Sept. 7.—The residence of Cardinal Gibbons was robbed on Sunday of two valuable rings, one of which was a present from Pope Leo. They were stolen from a drawer in the library, the lock of which the thief cut out. No clew to the thief has been obtained.

THE KRIEGER BUND.

Third Annual Meeting of the National Society at Chicago.

CHICAGO, Sept. 7.—Eighty-five delegates, representing twenty-five societies of the

Deutscher Krieger

Bund of North America, were at

Brand's hall yesterday, holding a session of their third

National convention.

President Henry Buschmann, of Cincinnati, made

a speech, in which he congratulated the society upon

the increase of subordinate societies

and 700 members

during the year. He said the leading

Germans of the country were interested in

the success of the society, because it did so

much to keep alive the comradeship of the

ex-soldiers, and was to the German-Americans

what the military society of the Fatherland is to Germans.

He exhorted the delegates to teach the members of their societies

to be good citizens and obey the laws of

their new country, as they were obedient

and brave soldiers in their old country.

Consul Nordenflecht talked briefly, and bid them keep their honor clean.

The secretary reported a membership of

2,900. The treasurer said there was \$263

cash balance on hand. At the preceding

convention it was proposed to build a home in

Cincinnati for worthy and disabled sol-

diers. It was agreed yesterday that the pro-

ject should be deferred until the society be-

came stronger. In the afternoon an elabor-

ate banquet was served at the hall, and then

everybody went out to Sharpshooter's park,

and the Chicago Verein presented a silken

banner to the National society with appro-

priate exercises.

The operators propose to pay second and fourth Saturdays to within two weeks to the day. This is the first strike that has occurred here in two years.

Kicked His Wife to Death.

NORTH ADAMS, Mass., Sept. 7.—William O'Brien, a mill hand, murdered his wife to night, at Greylock, in a most brutal manner, knocking her down and kicking and stamping upon her. He was observed in the act and arrested. The murder occurred in a field where O'Brien had taken the woman for a walk, expecting to be unseen. He had long abused and been unfaithful to her, and wanted to get rid of her. He narrowly escaped lynching.

CHARLESTON, S. C., is fast recovering from the wreck and ruin wrought by the earthquake a year ago. During the past year over 6,000 buildings have been built and repaired, and 271 absolutely new buildings have been erected. The whole cost is \$4,300,000, of which Charleston spent at least \$3,000,000. This is a wonderful showing, when the terrible havoc wrought by the earthquake is considered.

William Turnepost left for Manchester Monday to accept a position in a store. Will is a young man, and we predict success in all his enterprises. William did not accept and came home same evening. Still went back Tuesday. Will get him located after while.

"Pop goes the weasel," not exactly, but we hear it whispered, and that strongly, that two of our prominent young men are going to wed soon, due to a prominent Ripley belle, the other to one of Aberdeen's fair daughters, if it is a go. The BULLETIN now extends congratulations of symp—we mean may theirs be a happy fu.

There was quite a disturbance at the base ball match played Friday last between the California and Aberdeen clubs. During an altercation between a young man named Scott, of the California club, and Ed Perry, of the home club, they came to blows. Perry giving Scott a severe thumping on the head with a bat, necessitating the services of a surgeon. Dr. Heaton dressed the wound which is not, however, of a serious nature.

At the last drawing of the Louisiana State Lottery held in New Orleans, June 14th, New England was especially favored by the blind goddess, as parts of both second prize of \$100,000 and of the fourth prize of \$25,000, as well as a great number of smaller prizes, were drawn by tickets held in Maine and Massachusetts. Mr. A. B. Clark and Mr. R. J. Tuflin, of this city, each held a portion of the ticket that drew fourth grand prize, and each are correspondingly elated. — Boston (Mass.) Courier, July 2.

It Should be Generally Known

that the multitude of diseases of a scrofulous nature generally proceed from a torpid condition of the liver. The blood becomes impure because the liver does not act properly and work off the poison from the system, and the certain results are blotches, pimples, eruptions, swellings, tumors, ulcers and kindred afflictions, or settling upon the lungs and poisoning their delicate tissues, until ulceration, breaking down, and consumption is established. Dr. Pierce's "Golden Medical Discovery" will, by acting upon the liver and purifying the blood, cure all these diseases.

A JOB FOR JUDGE LYNCH.

An Aged Couple Murderously Assaulted and Robbed.

CATLETTSBURG, Ky., Sept. 7.—The vicinity of Ceredo, W. Va., is all stirred up over a dastardly attempt to murder A. E. Bush, aged eighty-two, and his wife, aged seventy-eight. At 5 o'clock this morning two men, bent on robbery, either negroes or white men blacked, were discovered to be in the house, and shot Dr. Bush in the forehead and Mrs. Bush in the body, inflicting probably mortal wounds. A twelve-year-old grandson was in the house, and in his flight was shot at several times.

He gave the alarm and hundreds of citizens are scouring the surrounding country after the perpetrators, who, if caught will be speedily lynched. They secured \$40 in money. The parties had evidently intended to wreck the pay car on the N. N. & N. W., which was due early this morning, as a huge obstruction had been placed on the track, but a freight train came along and demolished the obstruction. Being fooled in this they went to the house of Mr. Bush. It is not thought the aged couple can live. Ex-citement runs high.

A Sheriff Shoots Four Cattle Thieves.

ALBUQUERQUE, N. M., Sept. 7.—One of the most complete single handed shooting scrapes that ever occurred in this section, transpired yesterday noon at Holbrook, A. T. Four desperadoes rode into that town yesterday morning from Tonto Basin, named Tom Blivens, Jake Cooper, Charles Roberts and Jim Blivens, all notorious cattle thieves. Sheriff Owens, having warrants for their arrest, ran upon his men in a little shanty adjoining the livery stable of Brown & Kinders. He demanded their surrender, which was answered by a volley of shot, but as the men emerged from the shanty Sheriff Owens shot them down one by one, killing all instantly except young Blivens, a brother of one of the men killed. For months these men have caused a reign of terror in the Territory of Arizona.

Lived Six Years in a Second Century.

CINCINNATI, Sept. 7.—The remains of Lawrence Malloy, 106, laborer of Sabina, O., were brought to this city to-day for burial. Malloy was born in Ireland, where he married and resided until 1849. At the age of sixty-eight he came to Cincinnati, his wife dying here six weeks afterward of cholera. He lived in this city until twenty years ago, when he went to Sabina to reside with a married daughter. The funeral took place at 1:30 p. m. from the residence of a son-in-law, James Egan, at 162 Eastern avenue. The deceased had ten children, five of whom survive. He has thirty living grandchildren and six great-grandchildren.

Five Men Fatally Injured.

MOUNT VERNON, Ill., Sept. 7.—About 7 o'clock this morning a threshing machine belonging to William Bumphus exploded and fatally injured five men. The names of the victims are as follows: J. H. Mitchell, Robert Bernard, Thomas J. Williams, Coony Bumphus and Willie Bumphus. The cause of the explosion is unknown, but it is supposed to have been a defect in the engine, which was an old one.

Skirmish Between Italians and Irish.

WILKESBARRE, Pa., Sept. 7.—There was a bloody affray at Hazelton Sunday between Irish and Italians. It grew out of a fight between two men, and finally involved nearly the whole population. Clubs, razors, and knives were used. The Italians were finally routed. About twenty-five men were quite badly hurt, but John Cannon, the man who first started the row, is the only one likely to die.

A GREAT GAME

Between the "Record Breakers," of Court House Square, and the "Sluggers," of the Y. M. C. F. C.

The great game of ball between the "Record Breakers," of Court House Square, and the representatives of the Young Men's Kentucky Fair Company came off yesterday at the Chester Ball Park. As usual, the BULLETIN's free advertisement drew an immense crowd. Everyone must have had a complimentary ticket, as the receipts of the day were about as scarce as the seats for the spectators. The crowd was variously estimated at between forty and fifty. The numerous proprietors of the "kag," of course, were included.

They all filed out in line; the catcher of the one side shook hands with the catcher of the other, and then on down to the BULLETIN's man, who couldn't shake with the Republican's delegate, who was out with a bag of salt making "observations on the ways of the English sparrow." Whether Joe Hart had the "bones" loaded or not we don't pretend to say, but he won the choice of position for the "Sluggers." They wanted the field, but being afraid they would have to stay out there all the afternoon, they took the bat.

They stood upon the field, not like Court street "jack-legs," or "Boston sluggers," but like real sports who knew that the diamond was trumps for the evening's game.

At this point, all grew pale with excitement. George Keith grabbed the bat, not a word did he speak, not a ball was pitched. Harry Wadsworth, keen in his tricks even in the pitcher's stand, merely motioned his arm and wildly Keith fought the air. Three times Wadsworth turned him upon his heel, as though he had only a jury to conquer with his wind. But, as in most juries there is a contrary man, so umpire Ed Fitzgerald gave Keith his base, because some one said he knew five balls had passed. After reaching first base, the tussle for second was a hard one. Chan Jefferson was prepared on second to receive any "delinquent" ball that might pass. He received them, but goodness knows how. Tips on horse racing are a good thing, but when you "tip" a base ball, if the umpire is not afraid, he will call it a foul. Lee Lovel arranged himself and took the umpire's position with much applause from those around the "kag." Peter Parker braced himself and hit hard enough to elevate any ball for a home run. He gave Will Cox a six-minutes walk after the ball, but it was better time than Peter could make on the diamond, so he was put out at the home plate. He repeated this performance twice, and after the game was over "ran against time," but there being no thirty-day watches on the ground, his record will be disputed.

George Keith took the pitcher's stand at last, and worked the same confidence game on Will Cox that Harry Wadsworth had worked on him (Keith). But when a ball did come Cox's way the old Eckford war-horse sent it over among the pebbles on the Ohio shore where the gentle waves of water played to the tune of a home run and a lost ball forever.

Everybody got mad. It was the seventh inning and the score was much in favor of the "Young Men." But some high-salaried professionals under assumed names were substituted in the lawyer list. Joe Hart and Charley Hopper, having no taste for the corrupt, quit and so lost their side—the "Sluggers"—the game.

Both sides began to run up the score. It was remarked how very fast two of the "Sluggers" could go the diamond, but it was learned afterwards that they are bank clerks and only good runners ever reach Canada. In Jim Heflin's umpiring there was doubt as whether he did not favor himself more than either side whenever a ball came over the plate.

Jack Wadsworth in his paddy of many colors grew strong at the bat. He knocked a curve that hit Stockton under the sixth and laid him out. Some one asked for a bier with which to carry him off. A beer was brought and he soon revived.

The score stood 26 to 25 in favor of the "Record Breakers."

The True Blue Democrat, of Flemingsburg, says: "Dr. Gordon Smoot, well known in this city, and for some time connected with Dr. P. A. Gordon, has gone to Maysville, where he will permanently locate. Dr. Smoot has many friends in Flemingsburg, whose best wishes he carries with him."

The gold brick swindle is one of the oldest on the list, but a "sucker" is still caught occasionally by the tempting bait. Harvey Kenton, a wealthy farmer near Urbana, Ohio, was swindled out of \$2,200 by sharpers last Saturday. He thought he had bought a gold brick, but discovered his mistake when too late. Kenton will hardly handle any more bricks for some time to come.

A TERRIBLE ACCIDENT.

Michael Claire Caught by a Falling Bank of Earth and Badly Crushed.

Michael Claire, whose home is on the Germantown pike, just below the city limits, met with a terrible accident about 10 o'clock yesterday morning. He had been employed by King & Fitzgerald, railroad contractors, and was at work, with some fifteen or twenty other hands, at the west end of Third street, near the scene of the blast that wrought such damage to one or two houses a few days ago. For some days the hands have been engaged in completing the cutting down and grading of that part of Third street, and leveling off a lot on the north side of the street. The ground had been cut away leaving a toppling bank of earth and rock. Several hands were at work near this bank, among them Mr. Claire. He had stooped over and was in the act of shoveling some dirt into a cart near by, when suddenly the bank gave way and earth and rock toppled over upon him. He was crushed beneath the mass. He was gotten out as soon as possible by his companions, and taken to his home near by. It was found that he had sustained a simple fracture of the right thigh bone, and a compound fracture of the left leg between the knee and ankle. His right cheek bone was also broken, and he was otherwise hurt and bruised about the head and body. His physicians were not able to say whether he had suffered any internal injuries or not. It was learned this morning that his left thigh bone was also broken.

Drs. McNutt & Phillips were summoned immediately after the accident, and dressed the wounds. Yesterday afternoon it was found necessary to amputate the unfortunate man's left foot, and it was accordingly taken off just above the ankle joint. Dr. Phillips, assisted by Drs. McNutt and Shackleford, performed the operation.

Mr. Claire is about sixty years of age. His injuries are very serious and may prove fatal. He was resting as well as could be expected this morning.

The people seem to be taking the liveliest interest in the coming fair at Germantown. The BULLETIN office was besieged yesterday by applicants for the programme and premium list. A fresh supply has been received.

Mrs. MARY HOWARD BLACK, an insane woman living in Lewis County, was missing from home the other day. A prompt search was instituted, but no traces could be found. The river was dragged and the hills in the neighborhood were hunted over, and still no trace. Saturday night the body was found by her sister in a pork barrel at home, where she had died three days before.

A DEED from James H. Rogers to the Maysville and Big Sandy Railroad Company has been lodged for record in the County Clerk's office. Mr. Rogers reserves the right to remove all the buildings except a small frame cottage and a brick office.

GETTING DOWN TO WORK.

WHAT THE MEDICINE MEN IN WASHINGTON ARE DOING.

Eighteen Different Halls Filled with Delegates to the International Medical Congress—Who the Presiding Officers are. Other Washington Affairs.

WASHINGTON, Sept. 7.—The International Medical convention has got fairly to work. Within an hour after the adjournment of the opening general session, at Albaugh's theater, hundreds of the delegates had dispersed, and were listening to learned disquisitions and elaborate dissertations on human anatomy, the physiological functions of special organs, disease and other kindred topics, in the eighteen different halls and meeting rooms assigned to the eighteen different sections into which the congress is divided.

The section which looks after the interest of general medicine is presided over by Dr. A. B. Arnold, of Baltimore. The list of those who submit papers in this section comprises many of the most distinguished medical practitioners of the world. Dr. William T. Briggs, a surgeon of Nashville, Tenn., is president of the section of general surgery. Dr. John H. Callendar, of Nashville, a well known physician, presides over the section of physiology, the meetings of which promise to be of unusual interest, as papers are announced from a number of distinguished physiologists of England, Canada and the United States.

A section whose proceedings promise to have more popular interest than most of the others is that devoted to public and international hygiene, over which Dr. Joseph Jones, of New Orleans, presides. One section is given over to the consideration of diseases of children, and over this Dr. J. Lewis Smith, of New York city, presides.

The exhibition of medical and surgical supplies is in the Washington Light Infantry armory. The armory is apparently turned into a huge drug store, and presents a strange appearance. The exhibit is a curious and interesting display of drugs, surgical instruments, and all the appliances used in attacking diseases, relieving pain and performing surgical operations.

Patent Office Report.

WASHINGTON, Sept. 7.—The commissioner of patents, Benton J. Hall, has sent to the secretary of the interior a synopsis of his forthcoming annual report, in which he states that the number of applications for patents of all kinds received during the fiscal year ending June 30, 1885, was 40,678, and during last year 38,408. He states that the condition of the business of the office will compare favorably with that of any previous year, and that the office may be said to be fairly up with its current work. He emphasizes the necessity for additional room.

He states that the death of Levi Bacon, the financial clerk of the bureau, which occurred June 23 last, necessitated a settlement of his accounts, and an investigation disclosed the fact that there existed a shortage of \$31,091.61. There was found due bills, miscellaneous memoranda, etc., where Mr. Bacon had advanced and loaned the public money amounting to \$15,011.01, leaving net cash unaccounted for \$16,080.60. Of the latter the sum of \$11,525.60, is public money belonging to the revenues of this office. The remainder, \$4,555, belongs to the attorney's fund, made up of deposits with the financial clerk from time to time by attorneys to meet the charges and fees they are required to pay in their business transactions with the office. The commissioner states that the present deficiency is \$22,422.31 as the sum of \$8,668.80 has since been collected of the due bills, etc.

The commissioner is of the opinion that something more yet will be collected upon these due bills, etc., but no estimate can be made of the amount. The report shows that the number of patents granted during the year, including reissues and designs, was 21,732; number of trade marks registered, 1,101, and number of labels registered, 384. The number of patents expired was 12,782. The receipts from all sources was \$1,159,046.55, and the expenditures, including printing and binding and contingent expenses, was \$981,644.09, leaving a surplus of \$168,401.96. The balance now in the United States treasury on account of the patent fund amounts to \$3,168,401.96.

Presidential Appointments.

WASHINGTON, Sept. 7.—The president today appointed Samuel T. Williams, of Maryland, secretary of the United States legation at Brazil. Commissions have been issued by the president to the following naval officers: Daniel H. Braine, rear admiral; George Brown, commodore; Henry B. Robeson, captain; Benjamin F. Tilley, lieutenant commander, and Benjamin S. Richards, lieutenant commander.

FATE OF THE ANARCHISTS.

The Important Question About to Be Solved at Ottawa, III.

OTTAWA, Ill., Sept. 7.—"What will be the fate of the Anarchists?" This is the one absorbing question that is on the tongue of almost every individual in Ottawa to-day. The autumn term of the supreme court was formally opened here to-day. Several hundreds of the friends of the convicted men and lawyers came in on the morning trains from Chicago and other parts of the state. Just when the decision will be rendered is question, concerning which considerable mystery prevails.

It may come to-morrow and maybe not until the last day of the term several weeks hence. Report has it that the document has not yet been read to the conference of judges, and that there is no prospect that it will be filed until the middle of next week, and the dignity which surrounds the august occupants of the bench is so profound, and their ideas as to what may constitute contempt of court so broad and comprehensive, that not even the most enterprising of the score or more of newspaper correspondents who are on the ground is willing to take the risk of putting a point blank question. It is a subject of remark that almost, without exception, everyone here, both visitors and residents, are of the opinion that the decision will be against the condemned men.

If the decision of the lower court in these cases is affirmed, the law compels the court to deliver an oral as well as a written opinion, and also to fix the day of execution of the prisoners. In this event the opinion will probably be very brief. If, on the other hand, the decision of Judge Gary's court is reversed, the opinion will be voluminous. The clerk of the court does not look for an announcement in these cases until the second or third week of the term.
